

TEAR SHEETS

Tear sheets are selected articles culled from an array of philatelic journals that cover a broad spectrum of topics. Tear sheets are a useful and highly efficient reference tool to the collector and the philatelic researcher. Tear sheets are classified here by Geography or Subject. These two systems are not independent - **be sure to check in both lists.** Tear Sheets can be purchased from NPL mail or email at a modest per page cost plus the cost of mailing. Mail orders are sent as media mail with signature confirmation.
